**Please find below and/or attached an Office communication concerning this application or proceeding.**

The time period for reply, if any, is set in the attached communication.

<b>Office Action Summary</b>	Application No. 10/527,231	Applicant(s) PUNAGANTI ET AL.	
	Examiner CongVan Tran	Art Unit 2617	

**-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --**  
**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

### **DETAILED ACTION**

1. This office action is in response to amendment filed Feb. 09, 2007.
2. Claims 1, 11, 14, 20, 22, 23, and 27 have been amended.
3. Claims 34 have been added.

### ***Response to Arguments***

4. Applicant's arguments with respect to claims 1-33 have been considered but are moot in view of the new ground(s) of rejection.

### ***Claim Rejections - 35 USC § 102***

5. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in a patent granted on an application for patent by another filed in the United States before the invention thereof by the applicant for patent, or on an international application by another who has fulfilled the requirements of paragraphs (1), (2), and (4) of section 371(c) of this title before the invention thereof by the applicant for patent.

The changes made to 35 U.S.C. 102(e) by the American Inventors Protection Act of 1999 (AIPA) and the Intellectual Property and High Technology Technical Amendments Act of 2002 do not apply when the reference is a U.S. patent resulting directly or indirectly from an international application filed before November 29, 2000. Therefore, the prior art date of the reference is determined under 35 U.S.C. 102(e) prior to the amendment by the AIPA (pre-AIPA 35 U.S.C. 102(e)).

6. Claims 1-34, are rejected under 35 U.S.C. 102(e) as being anticipated by Okun et al. (2002/0077157).

Regarding claims 1, 9, 11, 14, 20, 23 and 34, Okun discloses a method and apparatus in a wireless transceiver for advising and placing a calling party on hold/delay, method comprising: detecting a call establishment request (see abstract, fig.1, element 112, 126, paragraph [0040]); in response to said detecting, alerting a called terminal (see fig.1, element 112, 126, paragraph [0040] and also, paragraph [0057]); in response to said alerting, setting up a two-way connection between a calling terminal and the called terminal (see paragraph [0041] also, paragraph [0057]); determining that a two-way voice call between the calling terminal and the called terminal is not allowed (see paragraph [0041] "the called party may readily depress a select key or button " also, paragraph [0057]); receiving silent messages via the called terminal and/or the calling terminal (see paragraph [0041] "otherwise active the inventive feature to cause the system to automatically generate the message to the calling party"); and conveying information based on said silent messages to the calling terminal and/or the called terminal, respectively (see paragraph [0041] without required the called party to interrupt his call on the first phone line).

Regarding claims 2-3, 26-27, Okun further discloses wherein said determining is based on detecting a predetermined input via a user interface of the called terminal after said alerting (see fig.7, steps 703, 704).

Regarding claims 4-7, 10, 17-19, 21, and 31-33, Okun further discloses converting said silent messages to speech (see paragraph [0012]).

Regarding claims 8, and 28-30, Okun further discloses wherein said plurality of predetermined voice messages is dimensioned such that any predetermined voice

message is selectable without moving fingers on the user interface (see paragraph [0017]).

Regarding claims 12-13, 15-16, and 22, Okun further discloses wherein the apparatus is located in a network element (see abstract, fig.1 and its description).

Regarding claims 24-25, Okun further discloses presenting an audio alert or a visual alert in the called terminal (see paragraph [0057]).

### ***Conclusion***

7. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
